The Miracle Of Vinegar

The origin of the word vinegar can be traced back to the Latin words for wine, 'vinum,' and sharp, 'acer' and the French words for wine, 'vin' and sour, 'aigre.' The word 'vinaigre' literally means sour wine.

Vinegar was almost certainly discovered by accident when a cask of wine, past its time, fermented and turned sour. An fortuitous accident that has been performing miracles ever since.

There are many types of vinegar available on the market with new specialty vinegars surfacing each year.

Here is a brief description of how some of the more common vinegars are created.

**Pure White Vinegar:** Corn is converted to starch and then sugar, and then the secondary fermentation of a neutral spirit alcohol is converted into vinegar.

**Malt Vinegar:** Made from the alcohol obtained from the fermentation of barley malt.

**Red Wine Vinegar:** Made from the wine of red grapes.

**White Wine Vinegar:** Made from the wine of white grapes.

**Apple Cider Vinegar:** Made from the alcohol obtained from the fermentation of apples.

For Hundreds of years people have used white vinegar for a whole range of purposes and these tips have been passed on from generation to generation. However, in today's hectic times many of these great uses for white vinegar have been forgotten.

This book sets out a broad range of vinegar usage tips that are both convenient to use and more importantly they really work.

Sixty Uses Of Baking Soda

Bicarbonate of soda or baking soda has many different uses in the household.

Although much more expensive products have been developed over the years to do the same jobs, baking soda can work for you just as well, if not better.

Use it in the following ways:

1. To make your own baking powder, stir and sift together 2 parts of Cream of Tartar to 1 part baking soda and 1 part cornstarch.

2. Be sure to keep an extra box of baking soda by your stove in case of grease or electrical fire. Scatter the powder by the handful to safely put it out.

3. Keep a container of baking soda in your garage as well as in your car to put out a fire. It won't damage anything it touches.

4. Baking soda will also put out fires in clothing, fuel, wood, upholstery and rugs.

5. Clean vegetables and fruit with baking soda. Sprinkle in water, soak and rise the produce.

6. Wash garbage cans with baking soda.

7. Soak and wash diapers with baking soda.

8. Oil and grease - stained clothing washes out better with soda added to the washing water.

9. Clean your fridge and freezer with dry soda sprinkled on a damp cloth. Rinse with clear water.

10. Deodorize your fridge and freezer by putting in an open container of baking soda to absorb odours. Stir and turn over the soda from time to time. Replace every 2 months.
11. Soda absorbs kitty litter odours. Cover the bottom of the kitty box with 1 part soda; then add a layer of 3 parts kitty litter on top.

12. Always add 1/2 cup soda to your washing machine load.

13. Clean combs and brushes in a soda solution.
