If Content Is King. Then The WOW Content Club is the Kingdom You Have Been Searching For!

Yes, Yes, we know... there seem to be a million info-marketing sites on the internet these days, with more springing up every day. And they all seem to be offering so much stuff you don't know where to turn or whom to trust. So what makes us different from all of the rest. Not just different, but **completely and utterly unique**.

In a word. **Our Products**. They are truly exceptional products. And I will give you some examples to back up this statement in this pdf, so that you will know that I am not just blowing hot air. First off, however, here are **3 solid reasons WHY no one can compete with us, no matter how hard they might try**.

1. We offer ALL types of information. We don't just offer you niche products or public domain products OR business building products OR resale rights products OR articles OR reports. We offer the whole shebang. And we don't skimp about it either. We offer you more than anyone else of every single category of information you are looking for.

2. We don't just offer you a hodgepodge of randomly grouped products, so that you have to pour over them all to find what you are looking for. **We have carefully and meticulously organized and ALL of our quality content into 20 hard-hitting categories**, so that you can easily and effortlessly find exactly those products you are looking for in record time for any project you are working on.

3. Most membership sites don't really give you much bang for your buck. I mean let's be honest. You might get bunch of stuff when you first join, but after that you only get 2 or 3 products a month for the remainder of your membership. NOT with us. **Over-delivery is our specialty. We give you 40 brand, spanking NEW products each and every month - 12 Niche, 12 Public Domain, 12 Business Building and 4 Private Label.** NO ONE... and I repeat NO ONE else out there offers anywhere near that level of product over-delivery! And we even give BONUSSES on top of this!

Bottom line is... we aren't called WOW for nothing:-)

Now, about those products. Where do you want me to begin?

Perhaps, since we just talked about our unique, over-the-top packages, that is as good a place as any to begin.

OK, enough about our jam-packed Packages and Private Label Packs. Time to move on to **some of our other outstanding CONTENT**. After all, that is what you want to know about, right? **What else we offer that NO ONE ELSE DOES!**

OK, well. A lot of people offer **NICHE CONTENT** these days. I has become the rage. But if you have been online for any length of time, you tend to see the same products recycled again and again on different websites and in different packages.

Now, I won't kid you, at WOW, we have all that stuff. But that is just a small fraction of what we offer. For example, just last week I went to my secret sources and gathered these new products to add to our site. **I will wager that you have not seen these products offered anywhere else online yet.**

And you will not see these products offered elsewhere, until we make them available and one or more of our lucky members puts them up on a site of their own and broadens their access! Here then is a listing of these new additions:

Phew! Did you make it through?

And yes, we also offer **ARTICLES and **REPORTS****, but I am going to leave those out of this report, because I realize there is such a thing as overkill☺

Are you beginning to see why our members feel about us the way they do. Here is a sampling of what some of them have to say about our Club:

"What a site!!! I've never seen anything that even begins to compare to what you are offering."

--

Glen Mentgen, aka "ancient_one"

In recent months, I have joined -- and in some cases "un"-joined -- several content sites, from public domain to niche to more general material for use in e-zines or even e-books. I've been pretty happy with most, vaguely unhappy with some, seriously disappointed with one or two. **But I've only been spectacularly happy with two -- and WOW certainly lives up to its title as one of those. Actually, it far exceeds every expectation. There is no question you have set the standard by which all other content sites now will be judged, a standard so high, I rather doubt most of them will be able to take you on.** Which is great for the rest of us, of course.

I'm still putting the final touches on my own new site, which I hope to launch very soon; the content I have acquired from WOW already has made it a much better, far stronger offering than it would have been just a few months earlier. With the full expectation that relationship will not only continue, but grow stronger, **I want to thank you for what you have created and wish you all the success in the world with it and your plans to make it better. After all, the better WOW becomes, the better my site almost certainly will become.**

Cheers,

J.R. Wilson

Hi Greg and Gail:

Your 'WOW Content Club' is much more than just another club offering resale rights. When I studied what you have available to members, I must say I was truly impressed. And that does not happen much these days.

Your site is sure to help all marketers - both veterans and green internet marketing newbies. I like the fact that you have already done most of the hard work for them. As I stated on my own website, "Why re-invent the wheel?"

I am recommending to all my members that are serious about marketing on the internet to check out your membership before you close the doors.

Keep up the good work!

Hi Greg and Gail:

I just had to write and tell you **how excited I am to have joined up with WOW. I thought Christmas had come when I found you, I was that impressed. I simply could not believe how much value you are giving your members for their money!** I spent hours looking around the net for something like this to join and **I can tell you that absolutely NOTHING compares!**

The look of the site is great, the style is unique, it is very user friendly and you have catered for absolutely everyone. As if that wasn't enough, it gets even better! **I simply can't wait to hear that you have launched your WOW Empire Program!** I have seen the samples of these sites and they are fabulously content rich with lots of opportunities to make multiple streams of income.

I also want to **extend a BIG thank you to you Greg for your outstanding after sales service.** You responded with lightening response to my email enquiries and you **definitely know how to 'go the extra mile' for your customers! WOW is a priceless resource that everyone should have and I am going to make sure that everyone I know has it too!**

I feel proud to be a member of WOW. This membership is the platform from which I will be launching my own empire!

Thank you for people like you! I wish you both a HUGE success.

Kind regards,

Carrie Lynne

Gail,

"I have just joined your 'wow' product club and I'm very impressed. Thanks for putting it all together. I can cancel my other site memberships now, they don't even come close. My new website is to be launched very soon (webcafe24.com) and these amazing resources are going to make it so much easier to complete and keep fresh."

Greg and Gail,

I just wanted you guys to know how much I'm enjoying my WOW membership. Before I found out about you guys, I had quite a dilemma! I knew that niche markets are the key to success online but I still needed an education in internet marketing, so I'd know how to market to those lucrative niches.

So, unfortunately, my plan of attack was "split" down the middle. I needed access to internet marketing materials, but I also needed to begin to build my niche market materials. I had a "dual budget" thing going on. Half for niche products, half for internet marketing products. I shopped around for membership sites in both arenas and found out that they were anywhere up to \$197 a month! FOR EACH ARENA!

I was totally bummed out. Given my (puny) budget restrictions, I might have had about six bucks left over for incidentals (such as website hosting, autoresponder, advertising, promotion, etc.). But then I found you guys! I couldn't believe it. Niche products, internet marketing products, public domain products... over 30 products A MONTH (and counting)!

Well, I pinched myself to make sure I wasn't dreaming, and joined up. Now I can pursue my niche markets and still slowly build up to rubbing shoulders with the "big boys" in the internet marketing arena (and save a lot of money on the way). **You guys roll out products every month that I had planned on spending my hard-earned cash on before, but I don't have to! You SAVE me money every month. I am so glad I'm a member.**

Anyway, you guys are "tops" in my book. I like your style!

I was new to internet marketing and looking for content that I could both learn from and resell to get a business going. Somehow **I stumbled on Wow-Content and boy am I glad I did! This site is really the mother-lode!**

At first, I was skeptical. I've tried other sites and gotten nothing but a pile of worthless, out-of-date ebooks. But I was impressed that the folks at Wow Content let you browse their vault before signing up. And when I found a number of recent ebook and software packages from big name gurus, I was sold. I would have paid more to purchase just one of these packages. But for the price of one month's membership, I had access to dozens of valuable resources for my own use as well as full resale rights. It's really a no-brainer, the value and the potential are tremendous!

I'm also happy to report that the owners of Wow Content, Greg and Gail, are real people, and they've both been very helpful in responding to my emails and helping me get started getting the most out of all the site has to offer. In sum, Wow Content has greatly exceeded my expectations in terms of value and customer service. For anyone interested in internet marketing, this should be the first site you go to.

Greg,

I have purchased a few niche products over the last month or so, and I must say when I ran across yours, I was amazed. You offer far more than others I have seen for as much as a third of the cost.

Yours is so much more than a couple niche product categories and some articles, you include real products to sell AND recommended affiliate products, so I don't have to search for the right product to front end if I don't already have one. Based upon what I have seen out there, **I would have paid more for yours, much more. I am glad I got it before you came to your senses!**

Gail,

I just want to let you know that your site is absolutely fantastic. I have so much fun working with all information, software, ebooks, etc. that you provided.. and put them together as packages for my customers.

You are great and have been very helpful when I have any questions on how to do or what to do with load of information from your site. **Any body in this information and contents businesses should be your member!** Thanks so much.

Gail and Greg,

"... I was already glad that I was a member, but then I saw the extra bonus package (talk about over-delivering!). That IS an AWESOME bonus package! In fact, there are several products you brought out this month that I had put in my budget to buy at some future time. **So I guess my membership actually SAVED me some money. Can't beat THAT!..."**

Gail,

Love the website - I keep passing on buying packages and e-books and even single payment membership web sites as I know that your site is up to date and full of info. **It's the best content site that I have found.** It also has the best tech support!! :) Thanks again, Sue

Now, I am not saying that you should join our site. No way. In fact, if it makes you feel better being the member of a dozen different membership sites and paying out hundreds of dollars each month for the privilege, I say go for it!

‘Course, you still won’t get the product selection we offer, but you will gain entrée into a lot of different private sites, and I suppose if you like the idea of belonging of a bunch of exclusive mediocre clubs – that option is a better choice for you. But please... before you take any rash action... heed the following...

**Warning: Do NOT Join Any Membership Site
Unless it Meets the Following 5 Criteria:**

Here are 5 criteria or elements you absolutely, positively must have in any content provider site you join:

- | | |
|--|--|
| | You must have a good selection of content. When you join a club where they only offer you 2 or 3 products a month, you are limited in what you can do with that content. Beyond that, every other member is going to be marketing those few products, so there will be hundreds of sites competing in the same market. So... you want to make sure that any site you join offers you as wide a selection of new, fresh products each and every month as possible. To the best of my knowledge, we are the ONLY site that does this. |
| | You must have real live, honest to goodness people in charge of the site who are responsive to your needs and eager to help you get your business off to the best possible start. The one thing that Greg and I feel very strongly about in starting and building this Club is that we are building a community not just a business. We really want to get to know each and every one of our members. You are all VERY important to us - and we really do want to see you succeed. So yes, you will find that when you call the number on our site, a live human being - Greg - actually does pick up the phone! And when you email us for support - we really do get right back to you with an answer. AMAZING! |

✓	<p>You must be able to preview the products you will be getting when you join. I can't tell you how many times I have read a great sales pitch, joined a club, only to be sorely disappointed when I actually gained admittance to the site and saw the actual products. Be wary of any marketer who will not show you his products up front. At WOW we show you everything up front because we know we offer top quality products and that we OVER-deliver terrific VALUE and we want you to see that up front. We are very proud of all of our content.</p>
✓	<p>While we are talking about products, it almost goes without saying that the products you receive from any membership site you join must be of high quality with plenty of original, topical content and not just recycled junk that is being sold by the tens of thousands of other sites. Of course, you will not know this if you are not allowed to preview the offerings. But if you are, you will find, especially with resale right sites, that many of the offerings are quite outdated. You really need to be leery of any offer that sounds too good to be true. Except ours, of course:-)</p>
✓	<p>And finally, it helps to have a wide variety in the type of content you receive. Yes, many sites pride themselves on specializing in Public Domain Content or Niche Content or Internet Marketing Content. And, lately a lot of sites are cropping up that specialize in Article delivery. But... we all know that to succeed online big time you need to develop multiple streams of income, so why would you tie yourself down to one type of information? Here at WOW, you can GET IT ALL for a lot less.</p>

As our existing members have said above, **the WOW Content Club meets all these criteria with flying colors.** In fact, we pride ourselves on having **raised the bar and having set a new industry standard as content providers.**

We would love to have you come join us.
